

BIORAY® VACCINE SUPPORT GUIDE

ORGAN SUPPORT AND TOXIN REMOVAL DURING & AFTER INOCULATIONS

BY STEPHANIE RAY, ND, CNHP AND TAMI WILKEN, ND, CNHP

More than 75% of parents are concerned about the side effects of vaccinations, according to a survey released by the Center for Disease Control in 2011.

The choice of how and whether to vaccinate is a very personal one. It can be a daunting experience wading through the difficult options. If you do decide to vaccinate, you want the vaccine to be as effective as possible with the least amount of side effects.

ORGANS TO SUPPORT WHEN GETTING IMMUNIZATIONS

- 1. Support the adrenal system** to keep the body's natural stress responder strong. Getting shots is emotional and physically stressful.
- It's important for our **biggest filtration system, the liver**, to be working well. The liver is responsible for cleaning the blood and has pathways for removing toxins. This allows vaccines and their byproducts to have the least negative impact.
- The gastrointestinal system goes into overdrive, fighting invaders that have entered the body. Supporting the **microbiome in the gastrointestinal tract keeps immunity strong**.
- Vaccines contain toxins which pollute the body and interfere with cellular and mitochondrial function. **Removing toxins is a crucial component** for the body's ability to repair and regenerate.

Here are recommendations on how to use BIORAY Professional®, BIORAY Daily® or BIORAY Kids® product lines when getting immunized. Choose one line or mix them together for optimal support.

Length of time:

Take for a minimum of 5 days prior to vaccinations and continue for 3 weeks following each inoculation.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

BIORAY Professional® Suggested Intake: Take each product as instructed on label, twice a day.

1. Loving Energy®
2. Liver Life®
3. Cytoflora®
4. NDF Plus®/NDF® or both

BIORAY Professional®

For kids under 1 year old:

A lower dose of NDF Plus®, 3x a day is recommended versus a higher dose twice a day.

10 lbs or less

- 1-2 drops, Liver Life®, 2 times a day
- 5 drops, CytoFlora®, 2 times a day
- 1-2 drops, NDF Plus®, 3 times a day

11-15 lbs

- 3-4 drops, Liver Life®, 2 times a day
- 10 drops, CytoFlora®, 2 times a day
- 3-4 drops, NDF Plus®, 3 times a day

BIORAY Kids® Suggested Intake: Give 1 ml per 25 lbs of body weight of each product, 1-2 times a day.

1. NDF Calm®
2. NDF Belly Balance®
3. NDF Focus®

BIORAY Daily® Suggested Intake: Take 2 ml of each product, 1-2 times a day

1. Loving Energy®
2. Liver Lover®
3. Belly Mend®
4. Mind Zeal®
5. Primary Detox®

ADDITIONAL RECOMMENDATIONS ON THE DAY OF VACCINATION:

- Have an ice pack with you. Immediately following injection, apply ice pack to the area for 15-30 minutes.
- Homeopathic Remedy Thuja 6x: Take 4 pellets immediately under tongue, and then again 1 hour, 1 ½ hours and 2 hours following vaccination.
- Rescue Remedy: Take 3-4 times on day of vaccination; before going to the doctor's appointment, immediately after vaccine and 1-2 times later in the day.

Working with a caring and thoughtful health practitioner is recommended. At BIORAY® supporting you and your family's health goals is our highest priority.

BIORAY® ANTIBIOTIC SUPPORT GUIDE

NATURAL IMMUNITY SUPPORT AND TOXIN REMOVAL DURING ANTIBIOTIC USE

BY STEPHANIE RAY, ND, CNHP AND TAMI WILKEN, ND, CNHP

Utilizing natural remedies to support the body's ability to stay balanced when medications are needed provides us with the best of both worlds. Medications like antibiotics have a negative impact in the body.

- Antibiotics destroy friendly and beneficial microbiology in the gastrointestinal tract which leaves us susceptible to bad bugs or invaders.
- Toxic byproducts of antibiotics stress the liver, kidneys, adrenals, GI tract and bowels.

ORGANS TO SUPPORT WHILE USING ANTIBIOTICS

1. During antibiotic use, it's important to **support the body's ability to filter toxins by nourishing the liver** as well as supporting the **adrenals which is the organ system that handles stress**. Results are feeling less irritable and better sleep.
2. Many people experience gut issues or loose stools from antibiotics. **Support healthy intestines with beneficial yeast and probiotic lysate during antibiotic use.**
3. After antibiotic use, **continue liver, adrenal support and detoxification**. It's important to keep residue left behind from medication moving down and out of the body.
4. **Reestablish beneficial flora in the gastrointestinal tract** with your choice of live probiotics.

Here are recommendations on how to use BIORAY Professional®, BIORAY Daily® or BIORAY Kids® product lines when using antibiotics or other medications. Choose one line or mix them together for optimal support.”

Length of time:

Give recommended products during antibiotic use and continue for 1-3 months depending on length of antibiotic use and severity of symptoms.

BIORAY® Professional Suggested Intake: Take each product as instructed on label, twice a day.

1. Loving Energy®
2. Liver Life®
3. Cytoflora®
4. NDF Plus®/NDF® or both

Stephanie Ray has over 25 years of experience in Chinese medicine, specializing in detoxification and organ support. Stephanie serves as the driving force behind BIORAY's line of dietary supplements for doctor's and their patients. Bioray Kids® purpose is to make mom and dad's life easier. "I created this specialty line for kids to help parents address issues their children are having and give peace of mind."

For kids under 1 year old: A lower dose of NDF Plus®, 3x a day is recommended versus a higher dose twice a day.

10 lbs or less

- 1-2 drops, Liver Life®, 2 times a day
- 5 drops, CytoFlora®, 2 times a day
- 1-2 drops, NDF Plus®, 3 times a day

11-15 lbs

- 3-4 drops, Liver Life®, 2 times a day
- 10 drops, CytoFlora®, 2 times a day
- 3-4 drops, NDF Plus®, 3 times a day

BIORAY Kids® Suggested Intake: Give 1 ml per 25 lbs of body weight of each product, 1-2 times a day.

1. NDF Calm®
2. NDF Belly Balance®
3. NDF Focus®

BIORAY Daily® Suggested Intake: Take 2 ml of each product, 1-2 times a day

1. Loving Energy®
2. Liver Lover®
3. Belly Mend®
4. Mind Zeal®
5. Primary Detox®

ADDITIONAL RECOMMENDATIONS:

- **Saccharomyces Boulardii** - Open up capsule(s) and mix in water or juice. 1-3 capsules, 3x a day.
- **Live Probiotics of your choice** - Open capsules and mix in water or juice. 2-4 capsules, 2 times a day.

Our mission at BIORAY® is to educate moms and dads about dietary supplements and food options, so you can keep yourself and your family strong and healthy.

SEALS OF APPROVAL
